

Droid Sans Fallback (Droid-Sans-Fallback.ttf 2012-08-22)

This CJK Hei/Gothic or Humanist Sans font was a fallback for an old version of Android. I originally used the 'Fallback Full' font, but that eventually dropped Korean (Hangul) coverage, causing me to discard my old copy when I hit an issue with that, and no variants are now available. This version is the best available match for that.

It covers only English, Dutch, Russian, Chinese (both simplified and traditional, but not Cantonese), Japanese and Korean.

For variations of the Latin and Cyrillic alphabets I attempt to show the whole alphabet, followed by Article 1 of the UDHR (it is traditional!). For the other scripts and languages I merely display the digits (if not common 0..9) and Article 1.

This document was prepared using Xe_{La}T_EX and fontspec. Missing glyphs will be replaced by an empty box.

This font has only a regular weight in a normal style.

This font has poor coverage of Korean Hanja glyphs, as used in signs for place names and for personal names. Those which are present might look wrong to a Korean.

This font lacks the OpenType tags 'hani' and 'cyr' needed to use polyglossia for CJK and Cyrillic scripts.

1 Latin Alphabet (European variants)

1.1 Dutch

As well as the standard 26 letters, the IJ digraph IJ ij may be encountered.

Alle mensen worden vrij en gelijk in waardigheid en rechten geboren. Zij zijn begiftigd met verstand en geweten, en behoren zich jegens elkander in een geest van broederschap te gedragen.

2 Cyrillic Alphabet

2.1 Russian

А а, Б б, В в, Г г, Д д, Е е, Ё ё, Ж ж, З з, И и, Й й, К к, Л л, М м, Н н, О о, П п, Р р, С с, Т т, У у, Ф ф, Х х, Ц ц, Ч ч, Ш ш, Щ щ, Ъ ъ, Ы ы, Ь ь, Э э. Ю ю, Я я

Все люди рождаются свободными и равными в своем достоинстве и правах. Они наделены разумом и совестью и должны поступать в отношении друг друга в духе братства.

3 CJK scripts

This is a Pan-CJK font, some glyphs in Japanese and Korean might use Chinese forms.

CJK languages use an ellipsis codepoint to shown omissions or tailing -off in speach. The codepoint is ideally placed at mid-level (most old CJK fonts do that if they do not cover non-English Latin languages), but in Unicode 14 the mid-level ellipsis (a mathematical symbol) was recommended for this purpose. In this font that symbol is present but appears on the baseline.

3.1 Japanese

すべての人間は、生まれながらにして自由であり、かつ、尊厳と権利とについて平等である。人間は、理性と良心とを授けられており、互いに同胞の精神をもって行動しなければならない。

3.2 Korean

모든 인간은 태어날 때부터 자유로우며 그 존엄과 권리에 있어 동등하다. 인간은 천부적으로 이성과 양심을 부여받았으며 서로 형제애의 정신으로 행동하여야 한다.

3.3 Simplified Chinese

人人生而自由，在尊严和权利上一律平等。他们赋有理性和良心，并应以兄弟关系的精神互相对待。

3.4 Traditional Chinese

人人生而自由，在尊嚴和權利上一律平等。他們賦有理性和良心，並應以兄弟關係的精神互相對待。

4 Quotation-marks, etc.

In real-world usage, particularly when looking at news sites, the presence or absence of the correct quote characters will make a difference. As a coder, I use ‘...’ or “...” but in good text there are variations and this font supports:

left and right single quotes ‘...’	angle brackets <...>
left and right double quotes “...”	double angle brackets «...»
single turned comma, with right single quote ‘...’	corner brackets 「...」
angle quotes <...>	white corner brackets ™...™

In Spanish languages, the inverted exclamation-mark ¡ and inverted question-mark ¿ are necessary.

5 Symbols

5.1 Currency Symbols

Many countries have symbols for their currencies. In alphabetic order:

₵ Cedi (Ghana)	₸ Manat (Azerbaijan)
¢ Cent (many places)	₦ Naira (Nigeria)
₡ Colon (Costa Rica, El Salvador)	£ Pound Sterling
₃ Cruzeiro (Brazil)	₹ Ruble (Russia)
\$ Dollar (many places)	₸ Tenge (Kazakhstan)
₫ Dong (Vietnam)	₺ Turkish Lira
€ Euro	₩ Won (Korea)
₴ Hryvnia (Ukraine)	¥ Yen (Japan)
